Profile

Results-driven **Software Team Leader** with over 3 years of experience leading cross-functional teams of engineers. Proficient in Agile methodologies and experienced in delivering high-quality software solutions for enterprise-level projects. Strong expertise in **full-stack development, DevOps, and CI/CD pipelines**, with a focus on enhancing team productivity and ensuring timely project delivery. Adept at **mentoring and coaching** junior engineers to **improve overall team performance**.

Work Experience

Fibernet Ltd, Software Team Leader (70% Hands-on)

2022 – Present

- Lead a team of **5 engineers** using Agile methodologies (Jira) to deliver high-quality software products.
- Define and track project goals and objectives, ensuring successful project completion within deadlines.
- Design and build enterprise-level software solutions across multiple platforms.

Fibernet Ltd, Software Engineer

2022

- Developed and delivered web applications using the **MEAN stack** (MongoDB, Express, Angular, Node.js) on both Linux and Windows environments.
- Gained expertise in MoIP/AVoIP protocols and third-party room control integrations.
- Developed and maintained CI/CD infrastructure for faster and reliable software delivery.

Elbit Systems, Software Engineer

2017 – 2022

- **Managed a team of engineers from the IDF**, coordinating project deliverables and ensuring optimal performance and integration of new technologies.
- Integrated QML and C++ for UI development in the Qt framework, optimizing performance and user experience.
- Developed real-time applications in C++, improving system response times and performance.
- Worked with technologies such as RabbitMQ and Cassandra for enhanced data handling.
- Developed and optimized DevOps infrastructure for Elbit's private environment.
- Worked with Jenkins pipelines, JFrog Artifactory, Azure DevOps, and GitLab CI to streamline development processes.
- Built and packaged software using package managers like NPM, PIP, Conan, Chocolatey, and NuGet.

Volunteering & Mentoring Experience

Cyber Education Center, Magshimim Program

2017 – 2019

Mentored students in OOP principles and multithreading in C++, guiding them through complex final projects.

Student Union, Ruppin Academic Center

2015 – 2017

Youth Center, Pardes Hanna

2020

Technical Skills

- **Programming Languages & Frameworks:**
JavaScript, TypeScript, Angular, Node.js, C++, C#, .NET, Node.js, Angular, Groovy, Qt/QML
- **DevOps & CI/CD:**
Docker, Jenkins, GitLab CI, Azure DevOps, Artifactory, TFS, JFrog, NPM, PIP, Conan, NuGet
- **Agile Methodologies & Project Management:**
Jira, Agile/Scrum practices, Cross-functional team management, Goal setting and tracking, Project delivery within deadlines
- **Video & Network Technologies:**
Video Protocols, Advanced Video Coding, MoIP (Media over IP), AVoIP (Audio Video over IP), Room control integration
- **Databases & Messaging Queues:**
MongoDB, RabbitMQ, Cassandra, REST APIs
- **Operating Systems:**
Linux (Ubuntu, CentOS), Windows

Education

Management Course

2024, Fibernet Ltd

Master's Degree in Business Administration (MBA), Specialization in Technologies

2020 – 2021, Ruppin Academic Center

Bachelor's Degree in Computer Engineering

2016 – 2020, Ruppin Academic Center

Military Service

Engineering Corps, Israel Defense Forces

2011 – 2014

- Served as a sapper and commander during the Commanders Course. Released with the rank of Staff Sergeant.
